MR. HAWLEY AND THE HARBOR.

The Port Orford Tribune takes exception to the statement of Congressman Hawley, representing this district, that he would "do all in his power to see that the interests of the people of southern Oregon were protected," speaking of the proposed federal improvement of the Crescent City harbor. Mr. Hawley could say no less. Though the Crescent City harbor is located over the line on the California coast, it will serve more people in Oregon than in California. Its greatest need is for the development of Oregon resources, and the Oregon delegation in congress owes it to its constituency to support the Crescent City harbor improvement just as loyally as though it was upon Oregon's coast line. The people of southern Oregon are expecting that Hawley will do "all in his power" to support this harbor improvement. Grants Pass has already spent \$200,000, and other thousands that will total millions are now being spent in the building of a railroad to Crescent City. Without the harbor improvement there would be little incentive for men of capital to invest in a railroad that could not connect with deep sea vessels when it reaches tide water. The improvement of the harbor is a commercial and an industrial necessity, and through it will drain the traffic from a great territory that can reach tide water in no other direction.

PROMOTING OREGON.

(Oregon Journal.)

The "made in Oregon" campaign possesses strength only when the articles offered or the attractions exploited have worth and price that compare favorably with the offerings of competitive districts.

Quality standards are not maintained when sentiment solely prompts purchases.

Business has never permanently succeeded on a sentimental basis.

But there are products of the soil and the manufactures—there are attractions of scenery and climate—in which Oregon excels.

It is right that our people should learn what these things are, learn where they may be found, use the products, patronize the industries and exploit our advantages to the furthest boundaries of their respective spheres of influence.

It was a shock when it was shown that Portland buys cherries grown in Oregon—but preserved in New York—at \$1.20 a pound. It was disconcerting when but one man of an audience of nearly two hundred admitted he was wearing a suit of Oregon woollens.

It was an experience not yet recovered from when the hotel clerks and the ticket agents and the information bureau attendants were unable to answer the simplest questions about the scenic attractions of Portland and the state.

It is a contribution to optimism when an organization like the advertising club of Portland announces intention to conduct campaigns that will make the world know more about and seek more of the products in which we excel.

The loganberry industry, salmon, lumber, dairying, scenic attractions,

GOTHIC THE NEW

2 for 25c COLLAR  
IT FITS THE CRAVAT

CLUETT, PEABODY & CO., INC., MAKERS

agricultural opportunities, are in the list of campaign subjects. If we make our campaigns definite, if we begin at home and work outward, if we maintain the highest standards and the most intelligent loyalty, we do work that makes substantial progress in Oregon more rapid than ever before.

CONTENDERS FOR  
DIAMOND HONORS  
ARE AT EVEN TERMS

(By United Press Leased Wire.)

New York, Oct. 5.—The Red Sox and Phillies will face each other on the world's series battlefield at practically even terms. From odds of 10 to 6, and 10 to 8, on Boston a week ago, the betting has been brought to even money, with little real coin in sight.

The decline in the sports' estimate of Boston's prowess was the more apparent today, following her double defeat yesterday at the hands of the Highlanders. The fans were plainly disappointed. Manager Carrigan had worked his two best bets—Leonard and Foster—and they went down to ignominious defeat. Leonard, particularly, cracked under the strain, and was forced to retire from the mound in the sixth after he had allowed nine hits and five runs.

Furthermore, the Boston aspirants for world honors played mediocre ball.

The weather will play a big part in the coming series. The mighty Grover Alexander will twirl for the Phillies in the first game. Then if he wins, as is expected, and it should rain Saturday, the Quaker nine would be in a soft position, for then the lanky Nebraskan would be in the harness again Monday, thus increasing the Phillies' chances of copping the banner.

President Wilson is slated to toss out the first ball Saturday, and he may have with him several of his cabinet members as well as Secretary Tumulty, who, like the president, is a fan of the dyed-in-the-wool variety.

WAR MAKES PRICE  
OF MEATS HIGHER  
IN UNITED STATES

Chicago, Oct. 5.—American housewives are paying part of the cost of the war, according to John T. Russell, former president of the National Master Butchers' association. In an interview with the United Press today on the subject of recently increased meat prices, Russell said that heavy demands of exporters to fill war orders is making a shortage in America. "Meat prices today," he declared, "are up from three to five cents the pound. Some grades can not be had at all. The only excuse for it is that the packers are selling so much to the warring nations that there is a shortage here. The natural consequence, of course, is higher prices to American housewives."

Russell agreed with Edward Levy, ex-president of the Chicago Master Butchers' association, that the fresher domestic meats are being sent abroad while Argentine meat in great quantities, that has been longer in storage, is being sold to American consumers.

20 MILES OF ALASKA'S  
NEW RAILROAD COMPLETED

Seattle, Oct. 5.—With work proceeding satisfactorily, 20 miles of the Alaska government railway has been completed, according to word received from Secretary of the Interior Lane.

A school house has been ordered built by the government at Anchorage, coast terminal of the railroad.

PEACE TO SETTLE  
OVER ROCKEFELLER  
COAL MINE CAMPS

Denver, Oct. 5.—The dove of peace hovered today over the Rockefeller camps for a move apparently was on foot whereby Governor Carlson will order dropped several hundred cases against men involved in the coal strike in 1913-1914. Officials denied Carlson planned to follow out the "tip" from Rockefeller headquarters that such a move would be acceptable, but there was strong reason to believe he had the suggestion under consideration.

District Attorney Hendricks of Los Angeles county said he would dismiss all the cases in his jurisdiction and he believed Attorney Farrar would do the same. Full returns from the mine camps, voting on the new Rockefeller industrial plan of "unionism without the union," were not at hand, but fragmentary reports indicated, as Rockefeller believed, that the men would swing into line behind the plan he called more democratic than unionism.

Lithographed fruit box labels at the Courier office.

It's easy enough to push the clock ahead, but you can't hurry time any. You can manipulate tobacco, but only time can age it into VELVET.

Velvet Joe

After the care and expense of selecting the finest Kentucky Burley tobacco, we won't permit it to lose its distinctive fragrance and flavor and good smoking qualities, by artificially rushing the curing.

Every bag, every tin, every humidor of VELVET is filled with tobacco that has been ageing for not less than two years—reaching its full, hearty maturity.

To this natural ageing, VELVET owes its smoothness, its extra mildness, the absolute absence of bite.

Have you read "Pipe Philosophy," Velvet Joe's illustrated book of verse and wisdom? Send a 2c stamp for a copy.

MAYOR THOMPSON  
ORDERS LID CLOSED  
DOWN IN CHICAGO

Chicago, Oct. 5.—The windy city was aghast this morning when it awakened to find that the "lid"—rusted, hidden and forgotten—had been ordered screwed tighter than a drum on Sunday saloons.

Mayor Thompson had commanded his henchmen to find the lid and clamp it tight just before he and a group of aldermen left last night for San Francisco, where they will attend the Chicago day exercises at the exposition.

The wets hailed the move as a loss of \$3,500,000 revenue, the dries as a harbinger of ultimate success in their effort to close the city's 7,152 saloons. In taking this step, Mayor Thompson's reasons were said to be: The force of the organized protest against open violation of the state Sunday closing law, the opening shot of his presidential boom, and a fearless determination to keep promises of law enforcement made in his campaign.

MINNEAPOLIS NOT  
YET PREPARED  
TO BANISH BOOZE

Minneapolis, Oct. 5.—Minneapolis has declined the honor of becoming the largest dry city in America. By a majority of 8,950 Hennepin county, of which Minneapolis is the principal part, defeated local option. The total vote was 66,000, or 14,000 more than ever cast in an election in the county before.

The dries were extremely shocked by the result, for they had anticipated a sweeping victory.

Minneapolis will be wet for the next three years unless state-wide prohibition in the meantime closes her bars, for the county option law provides against another test in that time.

SENATOR OPPOSES  
TAX ON POLICY FOR  
LIFE INSURANCE

San Francisco, Oct. 5.—Taxation of insurance policies was denounced as a tax on thrift by United States Senator Lawrence Y. Sherman of Illinois at today's session of the World's Insurance congress. Sherman presided over the meeting.

"Insurance," said Senator Sherman, "is one of the greatest instruments to promote self-support and protect the family known to civilized society. The legislator who sees in it only an enterprise to be burdened whenever taxes are to be laid has not analyzed well the relation between national strength and private individual support, the solvency of the family or its responsible head."

He urged that policy holders organize to protest against the imposition of "double taxation." He also advocated national uniformity of regulations affecting the insurance business and suggested an amendment to the federal constitution which will permit congress to handle the subject.
